

**BARDAVON®**

**YOUR NATIONAL  
PT/OT NETWORK  
PARTNER FOR  
INJURY RECOVERY.**

## INJURY RECOVERY SUITE

Bardavon helps injured workers recover to live a healthy, movement-filled life.

### + RISK MANAGEMENT FOR WORKER HEALTH

Expect personalized, tech-enabled injury recovery solutions to ensure a safe return-to-work. Our workers' compensation platform – from referral to discharge – shortens case duration and lowers medical costs. Clients experience case transparency, attentive coaching, and actionable data + reporting to help inform treatment decisions.

## **+ NATIONAL PT/OT NETWORK**

Equipped to deliver exceptional care for injured workers, Bardavon directly contracts with tens of thousands of the nation's leading outpatient therapy providers to guide efficient and effective treatment plans. Covering all 50 states and reaching 94% of America's workforce, we work together to provide whole-person care to injured workers that addresses essential job demands, individual physical conditions, and comorbidities.

## **+ WORKER ENGAGEMENT DURING RECOVERY**

With Recovery+, our experienced, in-house clinical coaches engage directly with injured workers. Using an SMS-based program, we offer personalized case support and educational content aimed at improving recovery times. Coaches assess patient-reported outcomes (PROs) to track worker wellbeing, identify biopsychosocial challenges that may impact case progression, and advise therapists on return-to-work goals to achieve positive outcomes.
